Tradition and Sustainability

The company CIF is a company founded in 1895.

With consistent growth, it was already one of the most prestigious companies in the Greater Porto region in the 1930s. It received the first prize at the Great Colonial Exhibition of 1934.

Currently, CIF is very well positioned in several markets, with three main areas of activity:

-Manufacturing custom parts for clients
-Manufacturing urban furniture
-Manufacturing fireplaces

It also manufactures cast iron inserts and stoves and produces kitchen articles.

To support its production, CIF is equipped with modern ovens, machinery, and thirty highly experienced individuals, ensuring that this company, located in the cradle of foundry in Portugal, possesses ancestral know-how and quality.

Custom Specialization

Manufacture of cast iron lampposts for public lighting found in major cities of Portugal, such as Porto, Lisbon, Madeira, as well as in Paris, London, and Rio de Janeiro. Some specimens dating back to the early 20th century are still in operation today.

CIF also manufactures garden furniture, fountains, barriers, balustrades, kiosks, and notably English-style cast iron garden benches, giving all classic European gardens a distinctive charm.
